

A History Of Venice John Julius Norwich

John Julius Norwich's dazzling history of Venice from its origins to its eighteenth century fall. 'Lord Norwich has loved and understood Venice as well as any other Englishman has ever done. He has put readers of his generation more in his debt than any other English writer' Peter Levi, The Sunday Times.

Four hundred years after its first performance, *The Merchant of Venice* continues to draw audiences, spark debate, and elicit controversy. This collection of new essays examines the performance and study of Shakespeare's play from a broad range of contemporary critical approaches. The contributors, drawn from four continents, build upon recent scholarship in new historicism, feminism, performance theory, and postcolonial studies to present new perspectives on the play, and offer fresh insights into its critical legacy on stage and as a literary text. A substantial introductory essay provides important historical context and surveys major critical approaches to the play over the centuries. This volume is an essential companion to *The Merchant of Venice* and a significant contribution to Shakespearean criticism.

Shakespeare and Venice is the first book length study to describe and chronicle the mythology of Venice that was formulated in the Middle Ages and has

Read Book A History Of Venice John Julius Norwich

persisted in fiction and film to the present day. Graham Holderness focuses specifically on how that mythology was employed by Shakespeare to explore themes of conversion, change, and metamorphosis. Identifying and outlining the materials having to do with Venice which might have been available to Shakespeare, Holderness provides a full historical account of past and present Venetian myths and of the city's relationship with both Judaism and Islam. Holderness also provides detailed readings of both *The Merchant of Venice* and of *Othello* against these mythical and historical dimensions, and concludes with discussion of Venice's relevance to both the modern world and to the past. The children's version of the #1 New York Times bestselling classic *Seriously, Just Go to Sleep* is the G-rated, child-friendly version of the book every parent has been talking about. *Go the F*** to Sleep*, the picture book for adults, became a cultural sensation by striking a universal chord for parents. Now, Adam Mansbach and Ricardo Cortés reunite with *Seriously, Just Go to Sleep*, inviting the children themselves in on the joke. Of course, kids are well aware of how difficult they can be at bedtime. With Mansbach's new child-appropriate narrative, kids will recognize their tactics, giggle at their own mischievousness, and empathize with their parents' struggles--a perspective most children's books don't capture. Most importantly, it provides a common ground for children and their

Read Book A History Of Venice John Julius Norwich

parents to talk about one of their most stressful daily rituals. This fresh rendition includes Cortés's updated illustrations, with a cameo appearance by Samuel L. Jackson, who narrated the audio book version of *Go the F*** to Sleep*. This is a fixed-format ebook, which preserves the design and layout of the original print book.

In the wake of her father's death, Rose Newlin finds solace in her work as a book restorer. Then, one rainy Connecticut afternoon, a struggling painter appears at her door. William Lomazzo brings with him a sixteenth-century treatise on art, which Rose quickly identifies as a palimpsest: a document written over a hidden diary that had purposely been scraped away. Yet the restoration sparks an unforeseen challenge when William--a married man--and Rose experience an instant, unspoken attraction. Five centuries earlier, Renaissance-era Venetians find themselves at the mercy of an encroaching Ottoman fleet preparing for a bloody war. Giovanni Lomazzo, a portrait artist grappling with tragedy, discovers that his vision is fading with each passing day. Facing the possibility of a completely dark world, Gio begins to document his every encounter, including what may be his final artistic feat: a commission to paint the enchanting courtesan of one of Venice's most powerful military commanders. Soon, however, Gio finds himself enraptured by a magnificent forbidden love.

Spellbound by Gio's revelations, Rose and William are soon forced to confront the reality of their own mystifying connection.

Lane, who specialized in medieval Venetian history.

A collection of sinister stories set in Venice and the Veneto region features contributions from such noted mystery authors as Francesca Mazzucato, Emily St. John Mandel, and Matteo Righetto.

'Norwich has loved and understood Venice as well as any other Englishman has ever done' Sunday Times 'Will become the standard English work of Venetian history' Financial Times _____ Renowned historian, and author of A Short History of Byzantium, John Julius Norwich's classic history of Venice A History of Venice tells the story of this most remarkable of cities from its founding in the fifth century, through its unrivalled status for over a thousand years as one of the world's busiest and most powerful city states, until its fall at the hands of Napoleon in 1797. Rich in fascinating historical detail, populated by extraordinary characters and packed with a wealth of incident and intrigue, this is a brilliant testament to a great city - and a great and gripping read. _____

'The standard Venetian history in English' The Times 'Norwich has the gift of historical perspective, as well as clarity and wit. Few can tell a good story better than he' Spectator

Read Book A History Of Venice John Julius Norwich

As a city that seems to float between Europe and Asia, removed by a lagoon from the tempos of terra firma, Venice has long seduced the Western imagination. Since the 1797 fall of the Venetian Republic, fantasies about the sinking city have engendered an elaborate series of romantic clichés, provoking conflicting responses: some modern artists and intellectuals embrace the resistance to modernity manifest in Venice's labyrinthine premodern form and temporality, whereas others aspire to modernize by "killing the moonlight" of Venice, in the Futurists' notorious phrase. Spanning the history of literature, art, and architecture—from John Ruskin, Henry James, and Ezra Pound to Manfredo Tafuri, Italo Calvino, Jeanette Winterson, and Robert Coover—*Killing the Moonlight* tracks the pressures that modernity has placed on the legacy of romantic Venice, and the distinctive strains of aesthetic invention that resulted from the clash. In Venetian incarnations of modernism, the anachronistic urban fabric and vestigial sentiment that both the nation-state of Italy and the historical avant-garde would cast off become incompletely assimilated parts of the new. *Killing the Moonlight* brings Venice into the geography of modernity as a living city rather than a metaphor for death, and presents the archipelago as a crucible for those seeking to define and transgress the conceptual limits of modernism. In strategic detours from the capitals of modernity, the book redrafts the confines of

Read Book A History Of Venice John Julius Norwich

modernist culture in both geographical and historical terms.

Bembo (1470-1547), a Venetian nobleman, later a Roman Catholic cardinal, was the most celebrated Latin stylist of his day and was widely admired for his writings in Italian. The History of Venice was published posthumously, in Latin and in his own Italian version. This edition makes it available for the first time in English translation.

"Illustrated collection of scholarly essays that provides commentary on both the history of Venice and the bequest of paintings it left to the world"--Provided by publisher.

Ranging from the days of the 6th century--when the early lagoon-dwellers lived "like sea-birds, in huts built on heaps of osiers" to the exquisite city of 18th-century revelers and 19th-century art lovers--the city's many different guises are revealed as its visitors saw them.

Often hailed as one of the best travel books ever written, Venice is neither a guide nor a history book, but a beautifully written immersion in Venetian life and character, set against the background of the city's past. Analysing the particular temperament of Venetians, as well as its waterways, its architecture, its bridges, its tourists, its curiosities, its smells, sounds, lights and colours, there is scarcely a corner of Venice that Jan Morris has not investigated and brought vividly to life.

Read Book A History Of Venice John Julius Norwich

Jan Morris first visited the city of Venice as young James Morris, during World War II. As she writes in the introduction, 'it is Venice seen through a particular pair of eyes at a particular moment - young eyes at that, responsive above all to the stimuli of youth.' Venice is an impassioned work on this magnificent but often maddening city. Jan Morris's collection of travel writing and reportage spans over five decades and includes such titles as Sydney, Coronation Everest, Hong Kong, Spain and Manhattan '45. Since its first publication, Venice has appeared in many editions, won the W.H. Heinemann award and become an international bestseller. 'The best book about Venice ever written' Sunday Times 'No sensible visitor should visit the place without it . . . Venice stands alone as the essential introduction, and as a work of literature in its own right.' Observer

Venice Reconsidered offers a dynamic portrait of Venice from the establishment of the Republic at the end of the thirteenth century to its fall to Napoleon in 1797. In contrast to earlier efforts to categorize Venice's politics as strictly republican and its society as rigidly tripartite and hierarchical, the scholars in this volume present a more fluid and complex interpretation of Venetian culture. Drawing on a variety of disciplines—history, art history, and musicology—these essays present innovative variants of the myth of Venice—that nearly inexhaustible repertoire of stories Venetians told about themselves.

Read Book A History Of Venice John Julius Norwich

The Republic of Venice was the first great economic, cultural, and naval power of the modern Western world. After winning the struggle for ascendancy in the late 13th century, the Republic enjoyed centuries of unprecedented glory and built a trading empire which at its apogee reached as far afield as China, Syria, and West Africa. This golden period only drew to an end with the Republic's eventual surrender to Napoleon. *The Venetians* illuminates the character of the Republic during these illustrious years by shining a light on some of the most celebrated personalities of European history—Petrarch, Marco Polo, Galileo, Titian, Vivaldi, Casanova... Frequently, though, these emblems of the city found themselves at odds with the Venetian authorities, who prized stability above all else and were notoriously suspicious of any "cult of personality." Was this very tension perhaps the engine for the Republic's unprecedented rise? Rich with biographies of some of the most exalted characters who have ever lived, *The Venetians* is a refreshing and authoritative new look at the history of the most evocative of city-states.

"The rise and fall of Venice's empire is an irresistible story and [Roger] Crowley, with his rousing descriptive gifts and scholarly attention to detail, is its perfect chronicler."—*The Financial Times* The New York Times bestselling author of *Empires of the Sea* charts Venice's astounding five-hundred-year voyage to the

Read Book A History Of Venice John Julius Norwich

pinnacle of power in an epic story that stands unrivaled for drama, intrigue, and sheer opulent majesty. *City of Fortune* traces the full arc of the Venetian imperial saga, from the ill-fated Fourth Crusade, which culminates in the sacking of Constantinople in 1204, to the Ottoman-Venetian War of 1499–1503, which sees the Ottoman Turks supplant the Venetians as the preeminent naval power in the Mediterranean. In between are three centuries of Venetian maritime dominance, during which a tiny city of “lagoon dwellers” grow into the richest place on earth. Drawing on firsthand accounts of pitched sea battles, skillful negotiations, and diplomatic maneuvers, Crowley paints a vivid picture of this avaricious, enterprising people and the bountiful lands that came under their dominion. From the opening of the spice routes to the clash between Christianity and Islam, Venice played a leading role in the defining conflicts of its time—the reverberations of which are still being felt today. “[Crowley] writes with a racy briskness that lifts sea battles and sieges off the page.”—*The New York Times* “Crowley chronicles the peak of Venice’s past glory with Wordsworthian sympathy, supplemented by impressive learning and infectious enthusiasm.”—*The Wall Street Journal*

For the past generation, most historical work on the Italian Renaissance has been devoted to the ways in which city states such as Venice transformed their captured

Read Book A History Of Venice John Julius Norwich

territories into a regional state during the fifteenth century. The territorial state approach de-emphasizes the persistence of communal politics and the communal identities of the subject cities of the new territorial states. Bowd's study is an important corrective to this argument. Based on extensive archival research in Brescia and Venice, *Venice's Most Loyal City* explores the creation of a civic identity based on local politics, religion, and ritual. Communal identity flourished in Brescia in ways that reveal the strength of local autonomy and the limits of state building in the triumphal age for Venice. It is especially sophisticated in the analysis of the treatment of Brescia's Jews and alleged witches. By employing the most recent methods of historical analysis derived from ritual and religious studies, Bowd manages to return to an older conception of Renaissance Italy that has been eclipsed in recent years.

In the fall of 1948, Ernest Hemingway and his fourth wife traveled for the first time to Venice, which Hemingway called "absolutely god-damned wonderful." A year shy of his fiftieth birthday, Hemingway hadn't published a novel in nearly a decade when he met and fell in love with Adriana Ivancich, a striking Venetian girl just out of finishing school. Here Andrea di Robilant re-creates with sparkling clarity this surprising, years-long relationship, during which Adriana inspired a man thirty years her senior to complete his great final work. Hemingway used Adriana as the model for Renata in *Across the River and into the Trees*, and continued to visit Venice to see her; when the Ivanciches traveled to Cuba, Adriana was there as he wrote *The Old Man and the Sea*. The

Read Book A History Of Venice John Julius Norwich

illuminating story of writer and muse--which also examines the cost to a young woman of her association with a larger-than-life literary celebrity--Autumn in Venice is an intimate look at Hemingway's final years.

How could early modern Venice, a city renowned for its political freedom and social harmony, also have become a center of religious dissent and inquisitorial repression? To answer this question, John Martin develops an innovative approach that deftly connects social and cultural history. The result is a profoundly important contribution to Renaissance and Reformation studies. Martin offers a vivid re-creation of the social and cultural worlds of the Venetian heretics—those men and women who articulated their hopes for religious and political reform and whose ideologies ranged from evangelical to anabaptist and even millenarian positions. In exploring the connections between religious beliefs and social experience, he weaves a rich tapestry of Renaissance urban life that is sure to intrigue all those involved in anthropological, religious, and historical studies—students and scholars alike.

John Julius Norwich's *A History of Venice* has been dubbed "indispensable" by none other than Jan Morris. Now, in his second book on the city once known as *La Serenissima*, Norwich advances the story in this elegant chronicle of a hundred years of Venice's highs and lows, from its ignominious capture by Napoleon in 1797 to the dawn of the 20th century. An obligatory stop on the Grand Tour for any cultured Englishman (and, later, Americans), Venice limped into the 19th century—first under the

Read Book A History Of Venice John Julius Norwich

yoke of France, then as an outpost of the Austrian Hapsburgs, stripped of riches yet indelibly the most ravishing city in Italy. Even when subsumed into a unified Italy in 1866, it remained a magnet for aesthetes of all stripes—subject or setting of books by Ruskin and James, a muse to poets and musicians, in its way the most gracious courtesan of all European cities. By refracting images of Venice through the visits of such extravagant (and sometimes debauched) artists as Lord Byron, Richard Wagner, and the inimitable Baron Corvo, Norwich conjures visions of paradise on a lagoon, as enduring as brick and as elusive as the tides.

An inspector rages against the announcement that police HQ is to relocate – the way so many of the city’s residents already have – to the mainland... An aspiring author struggles with the inexorable creep of rentalisation that has forced him to share his apartment, and life, with ‘global pilgrims’... An ageing painter rails against the liberties taken by tourists, but finds his anger undermined by his own childhood memories of the place... The Venice presented in these stories is a far cry from the ‘impossibly beautiful’, frozen-in-time city so familiar to the thousands who flock there every year – a city about which, Henry James once wrote, ‘there is nothing new to be said.’

Instead, they represent the other Venice, the one tourists rarely see: the real, everyday city that Venetians have to live and work in. Rather than a city in stasis, we see it at a crossroads, fighting to regain its radical, working-class soul, regretting the policies that have seen it turn slowly into a theme park, and taking the pandemic as an opportunity

Read Book A History Of Venice John Julius Norwich

to rethink what kind of city it wants to be.

This book is a sweeping historical portrait of the floating city of Venice from its foundations to the present day. Joanne M. Ferraro considers Venice's unique construction within an amphibious environment and identifies the Asian, European and North African exchange networks that made it a vibrant and ethnically diverse Mediterranean cultural centre. Incorporating recent scholarly insights, the author discusses key themes related to the city's social, cultural, religious and environmental history, as well as its politics and economy. A refuge and a pilgrim stop; an international emporium and centre of manufacture; a mecca of spectacle, theatre, music, gambling and sexual experimentation; and an artistic and architectural marvel, Venice's allure springs eternal in every phase of the city's fascinating history.

Critically acclaimed author John Julius Norwich weaves the turbulent story of Sicily into a spellbinding narrative that places the island at the crossroads of world history.

“Sicily,” said Goethe, “is the key to everything.” It is the largest island in the Mediterranean, the stepping-stone between Europe and Africa, the link between the Latin West and the Greek East. Sicily’s strategic location has tempted Roman emperors, French princes, and Spanish kings. The subsequent struggles to conquer and keep it have played crucial roles in the rise and fall of the world’s most powerful dynasties. Yet Sicily has often been little more than a footnote in books about other empires. John Julius Norwich’s engrossing narrative is the first to knit together all of

Read Book A History Of Venice John Julius Norwich

the colorful strands of Sicilian history into a single comprehensive study. Here is a vivid, erudite, page-turning chronicle of an island and the remarkable kings, queens, and tyrants who fought to rule it. From its beginnings as a Greek city-state to its emergence as a multicultural trading hub during the Crusades, from the rebellion against Italian unification to the rise of the Mafia, the story of Sicily is rich with extraordinary moments and dramatic characters. Writing with his customary deftness and humor, Norwich outlines the surprising influence Sicily has had on world history—the Romans' fascination with Greek civilization dates back to their sack of Sicily—and tells the story of one of the world's most kaleidoscopic cultures in a galvanizing, contemporary way. This volume has been a long time coming—Norwich began to explore Sicily's colorful history during his first visit to the island in the early 1960s. The dean of popular historians leads his readers through the millennia with the steady narrative hand of a master teacher or the world's most learned tour guide. Like the island itself, Sicily is a book brimming with bold flavors that begs to be revisited again and again. Praise for Sicily "Suavely readable . . . The very model of a popular historian, [Norwich] writes to give pleasure to the common reader. And what pleasure it is."—The Wall Street Journal "Entertaining on every page . . . There is something ancient and sorrowful in Sicily, 'some dark, brooding quality,' just as captivating as its spellbinding history or its beautiful and varied landscapes, from beaches to lemon groves, pine forests to volcanoes. . . . The most amiable and freewheeling of guides, Norwich will always find

Read Book A History Of Venice John Julius Norwich

time for the amusing anecdote.”—The Sunday Times “Utterly engrossing . . . written with passion about the art and architecture of this magical island, filled with gossipy tidbits and sweeping historical theories.”—The Daily Beast “Dazzling . . . Norwich is an elegantly graceful and entertaining storyteller.”—Richmond Times-Dispatch “Charming . . . richly nuanced history relayed with enormous fondness.”—Kirkus Reviews “A brisk and always-lively tour.”—Open Letters Monthly “Norwich is deeply in love with Sicily. [His] boundless affection has inspired a determined effort to understand its painful past. The result is impressionistic, as love often is.”—The Times “Norwich sketches personalities vividly. . . . He does the island and the reader a generous service in providing such an amiable introduction.”—The Sunday Telegraph “Norwich tells [Sicily’s] long, sad but fascinating story with sympathy and brio.”—Literary Review

Overzicht van de Venetiaanse architectuur, vanaf de stichting in de Romeinse tijd tot nu.

John Law is concerned here with the administration of the Venetian state in the late 14th and 15th centuries, and specifically with its possessions on the mainland of Italy. These gave Venice dangerously exposed and lengthy land frontiers, and also included a number of cities whose loyalties were not to be taken for granted. Verona, Friuli and the Trentino are the focus of several articles, while others look at the people and families involved, and at Venice's relations with its powerful neighbours, from Milan to Hungary. The studies demonstrate the substantial nature of Venetian involvement with

Read Book A History Of Venice John Julius Norwich

the 'Terraferma', well-established by the start of the 15th century, and examine the impact on the Venetian government itself of these mainland dominions.

An epic cultural journey that reveals how Venetian ingenuity and inventions—from sunglasses and forks to bonds and currency—shaped modernity. How did a small, isolated city—with a population that never exceeded 100,000, even in its heyday—come to transform western civilization? Acclaimed anthropologist Meredith Small, the author of the groundbreaking *Our Babies, Ourselves* examines the the unique Venetian social structure that was key to their explosion of creativity and invention that ranged from the material to social. Whether it was boats or money, medicine or face cream, opera, semicolons, tiramisu or child-labor laws, these all originated in Venice and have shaped contemporary notions of institutions and conventions ever since. The foundation of how we now think about community, health care, money, consumerism, and globalization all sprung forth from the Laguna Veneta. But Venice is far from a historic relic or a life-sized museum. It is a living city that still embraces its innovative roots. As climate change effects sea-level rises, Venice is on the front lines of preserving its legacy and cultural history to inspire a new generation of innovators.

No one has hitherto had the breadth of imagination and intellectual boldness to describe and analyse government throughout recorded history and throughout the world. This unique study of government is the culmination of the work of the late S. E. Finer, one of the leading political scientists of the twentieth century. Ranging over 5,000

Read Book A History Of Venice John Julius Norwich

years, from the Sumerian city state to the modern European nation state, five themes emerge: state-building, military formats, belief systems, social stratification, and timespan. The three volumes examine both representative and exceptional polities, and focus on political elites of different types. *Ancient Monarchies and Empires* opens with *Finer's* masterly Conceptual Prologue, setting out the entire scope and structure of *The History*. Books One and Two then consider early examples of the predominantly 'palace' type of polity, notably in respect of the Kingdoms of Egypt and the Empires of Assyria, Persia, Han China, and Rome; interspersed with consideration of the 'exceptional' Jewish Kingdoms and the Greek and Roman Republics. Professor *Finer's* cogent descriptive analysis offers both an invaluable reference resource and an exhilarating journey across time and space.

Looks at the history of Venice, from the fifth century to the present day.

What are the origins of the modern passion for Venice? During the two hundred years since its political extinction, the shabby relic of a despised tyranny has been transformed into a great modern cultural symbol celebrated by intellectual and literary figures such as Ruskin, Proust, Mann and Henry James. This engaging and novel interpretation explores the American and European obsession with the myth of a beautiful city, and in doing so reveals much about the development of modern Western sensibility. 'This book can be enjoyed whether or not you have been to Venice, or whether you never intend to go.' *Daily Telegraph* 'Full of fresh and little-known material;

Read Book A History Of Venice John Julius Norwich

it is almost unfailingly interesting and invariably well written.' Tony Tanner, New York Review of Books 'An entirely fascinating history of the city as she has been seen, as image and icon ... convincingly argued and consistently entertaining.' Independent An incisive account of the history of the Venetian Republic chronicles its fifth-century origins, development as a commercial and maritime power, Renaissance era, long decline, and termination in 1797

An extraordinary chronicle of Venice, its people, and its grandeur Thomas Madden's majestic, sprawling history of Venice is the first full portrait of the city in English in almost thirty years. Using long-buried archival material and a wealth of newly translated documents, Madden weaves a spellbinding story of a place and its people, tracing an arc from the city's humble origins as a lagoon refuge to its apex as a vast maritime empire and Renaissance epicenter to its rebirth as a modern tourist hub. Madden explores all aspects of Venice's breathtaking achievements: the construction of its unparalleled navy, its role as an economic powerhouse and birthplace of capitalism, its popularization of opera, the stunning architecture of its watery environs, and more. He sets these in the context of the rise and fall of the Byzantine Empire, the endless waves of Crusades to the Holy Land, and the awesome power of Turkish sultans. And perhaps most critically, Madden corrects the stereotype of Shakespeare's money-lending Shylock that has distorted the Venetian character, uncovering instead a much more complex and fascinating story, peopled by men and women whose ingenuity and deep

Read Book A History Of Venice John Julius Norwich

faith profoundly altered the course of civilization.

A #1 New York Times Bestseller! "Funny, insightful, illuminating . . ." —The Boston Globe Twelve years ago, *Midnight in the Garden of Good and Evil* exploded into a monumental success, residing a record-breaking four years on the New York Times bestseller list (longer than any work of fiction or nonfiction had before) and turning John Berendt into a household name. *The City of Falling Angels* is Berendt's first book since *Midnight*, and it immediately reminds one what all the fuss was about. Turning to the magic, mystery, and decadence of Venice, Berendt gradually reveals the truth behind a sensational fire that in 1996 destroyed the historic Fenice opera house. Encountering a rich cast of characters, Berendt tells a tale full of atmosphere and surprise as the stories build, one after the other, ultimately coming together to portray a world as finely drawn as a still-life painting.

An “engaging, enthusiastic, sympathetic, funny” journey through French history from the New York Times-bestselling author of *Absolute Monarchs* (*The Wall Street Journal*). Beginning with Julius Caesar’s conquest of Gaul in the first century BC, this study of French history comprises a cast of legendary characters?Charlemagne, Louis XIV, Napoleon, Joan of Arc, and Marie Antoinette, to name a few?as John Julius Norwich chronicles France’s often violent, always fascinating history. From the French Revolution?after which

Read Book A History Of Venice John Julius Norwich

neither France nor the world would be the same again?to the storming of the Bastille, from the Vichy regime and the Resistance to the end of the Second World War, A History of France is packed with heroes and villains, battles and rebellion—written with both an expert command of detail and a lively appreciation for the subject matter by this “true master of narrative history” (Simon Sebag Montefiore).

“Bad behavior makes for entertaining history” in this bold history of Europe, the Middle East, and the men who ruled them in the early sixteenth century (Kirkus Reviews). John Julius Norwich—“the very model of a popular historian”—is acclaimed for his distinctive ability to weave together a fascinating narrative through vivid detail, colorful anecdotes, and captivating characters. Here, he explores four leaders—Henry VIII, Francis I, Charles V, and Suleiman—who led their countries during the Renaissance (The Wall Street Journal). Francis I of France was the personification of the Renaissance, and a highly influential patron of the arts and education. Henry VIII, who was not expected to inherit the throne but embraced the role with gusto, broke with the Roman Catholic Church and appointed himself head of the Church of England. Charles V was the most powerful man of the time, and unanimously elected Holy Roman Emperor. And Suleiman the Magnificent—who stood apart as a Muslim—brought the Ottoman

Read Book A History Of Venice John Julius Norwich

Empire to its apogee of political, military, and economic power. These men collectively shaped the culture, religion, and politics of their respective domains. With remarkable erudition, John Julius Norwich offers “an important history, masterfully written,” indelibly depicting four dynamic characters and how their incredible achievements—and obsessions with one another—changed Europe forever (The Washington Times).

In the heart of Venice, a woman is sacrificed to a forgotten god, sparking a mystery lost for thousands of years. Dr. Penelope Bryne is ridiculed by the academic community for her quest to find the remnants of Atlantis, but when an ancient and mysterious script is found at a murder site, she flies to Venice determined to help the police before the killer strikes again. Penelope has spent her entire life trying to ignore the unexplainable and magical history of Atlantis, but when she meets the enigmatic Alexis Donato, everything she believes will be challenged. Little does she know, Alexis has spent the last three years doing his best to sabotage Penelope’s career so she doesn’t learn the truth—Atlantis had seven magicians who survived, and who he has a duty to protect. As Alexis draws her into the darkly, seductive world of magic and history, Penelope will have to use her heart as well as her head if she is to find the answers she seeks. With the new MOSE system due to come online, and Carnivale exploding around

Read Book A History Of Venice John Julius Norwich

them, Penelope and Alexis will have to work together to stop the killer and prevent dark magic from pulling Venice into the sea.

Henry Maguire, emeritus professor of art history at Johns Hopkins University, works on Byzantine and related cultures. He has written extensively on Venetian art and the church of San Marco.
