THE STORY: Growing up in an impoverished family in the Bronx, Moss Hart dreamed of being part of the glamorous world of the theatre. Forced to drop out of school at age thirteen, Hart's famous memoir Act One is a classic Hortatio Alger story that plots Hart's unlikely collaboration with the legendary playwright George S. Kaufman. Tony Award-winning writer and director James Lapine has adapted Act One for the stage, creating a funny, heartbreaking, and suspenseful play that celebrates the making of a playwright and his play Once in a Lifetime. ACT ONE offers great fun to a director to utilize over fifty roles, which can be played by a cast as few as twelve, and in a production that can be done as simply or elaborately as desired.

THE STORY: AFTER ASHLEY is a blisteringly funny and deeply affecting story about a teenage boy navigating the joys and terrors of life—all through the distorting prism of a media firestorm. The only bright spot is a girl, only Justin can't decide if she's a saving angel or a self-interested groupie. In a world as weird as this one, she might just be both.

Hotel Gwales is the eagerly anticipated new collection from award winning poet Nigel Jenkins. Nigel is well known both in Wales and internationally and is a frequent performer of his work. He has previously undertaken reading tours of countries including the USA and Switzerland. For the kings and queens of England, a trumpet fanfare or crash of cymbals could be as vital a weapon as a cannon. Showcasing a monarch's power, prestige and taste, music has been the lifeblood of many a royal dynasty. From sacred choral works to soaring symphonies, Music and Monarchy looks at how England's character was shaped by its music. To David Starkey and Katie Greening, works like Handel's Water Music and

Tallis's Mass for Four Voices were more than entertainment – they were pieces signalling political intent, wealth and ambition. Starkey and Greening examine England's most iconic musical works to demonstrate how political power has been a part of musical composition for centuries. Many of our current musical motifs of nationhood, whether it's the Last Night of the Proms or football terraces erupting in song, have their origins in the way the crown has shaped the national soundtrack.

Published to coincide with a major BBC series, *Music and Monarchy* is not a book about music. It is a history of England written in music, from our leading royal historian.

In an age of skepticism and disenchantment, people long for something that satisfies our mind's search for truth and our heart's desire for beauty and meaning. *Stand Firm: Apologetics and the Brilliance of the Gospel* argues that the gospel satisfies both of these needs. It is true and rational, but it is also inherently attractive and provides meaning and purpose. In short, the gospel is brilliant. It is brilliant, in one sense, because of the broad variety of evidences for its truth. But it is also brilliant given its

beauty, goodness and the meaningful life it offers. The book provides up to date responses to questions about the existence of God, the reliability of the Bible, Jesus and the resurrection, and the problem of evil. It also treats unique topics such as understanding truth, knowledge and faith, the claims of alternate faiths, religious disagreement, etc. Each chapter attempts to connect these considerations with the gospel so that we may stand firm in our faith.

America urgently needs a new direction. But who will provide it? The time has come to move the country forward with a clear agenda based on common sense for the common good. THERE IS A BETTER WAY. Make no mistake: Congressmen Eric Cantor, Paul Ryan, and Kevin McCarthy are proud Republicans. But they believe the party had lost sight of the ideals it believes in, like economic freedom, limited government, the sanctity of life, and putting families first. This isn't your grandfather's Republican party. These Young Guns of the House GOP—Cantor (the leader), Ryan (the thinker), and McCarthy (the strategist)—are ready to take their belief in the principles that have made America great and translate it into solutions that will make the future even better, solutions that will create private sector jobs, maximize individual freedom, and establish a better world for our children. This groundbreaking book is a call to action that sets forth

“The best new book on al Qaeda . . . and the best book on Yemen in years.”—Bruce Riedel, *Daily Beast*

Far from the battlefields of Iraq and Afghanistan, the United States and al-Qaeda are fighting a clandestine war of drones and suicide bombers in an unforgiving corner of Arabia. *The Last Refuge* charts the rise, fall, and resurrection of al-Qaeda in Yemen over the last thirty years, detailing how a group that the United States once defeated has now become one of the world’s most dangerous threats. An expert on Yemen who has spent years on the ground there, Gregory D. Johnsen uses al-Qaeda’s Arabic battle notes to reconstruct their world as they take aim at the United States and its allies. Johnsen brings readers in-side al-Qaeda’s training camps and safe houses as the terrorists plot poison attacks and debate how to bring down an airliner on Christmas Day. *The Last Refuge* is an eye-opening look at the successes and failures of fighting a new type of war in one of the most turbulent countries in the world.

opinions of the Nixon administration are strongly colored by foreign policy successes and the Watergate debacle. Its accomplishments in advancing the role of women in government have been largely forgotten. Based on the “A Few Good Women” oral history project at the Penn State University Libraries, *A Matter of Simple Justice* illuminates the administration’s groundbreaking efforts to expand the role of women—and the long-term consequences for women in the American workplace. At the forefront of these efforts was Barbara Hackman Franklin, a staff assistant to the president who was hired to recruit more women into the upper levels of the federal government. Franklin, at the direction of President Nixon, White House counselor Robert Finch, and personnel director Fred Malek, became the administration’s de facto spokesperson on women’s issues. She helped bring more than one hundred women into executive positions in the government and created a talent bank of more than a thousand names of qualified women. The Nixon administration expanded the numbers of women on presidential commissions and boards, changed civil service rules to open thousands more federal jobs to women, and expanded enforcement of antidiscrimination laws to include gender discrimination. Also during this time, Congress approved the Equal Rights Amendment and Nixon signed Title IX of the Education

Amendments into law. Featuring a new forward by Sara Eisen, this updated edition of *A Matter of Simple Justice* celebrates the 100th anniversary of women's suffrage in the United States through the story of Barbara Hackman Franklin and those "few good women" and shows how the advances that were made in this time by a Republican presidency both reflected the national debate over the role of women in society and took major steps toward equality in the workplace for women.

This collection of essays highlights innovative work in the emerging field of media archaeology. It explores the relationship between theory and practice and the relationship between media archaeology and other disciplines. There are three sections to the collection proposing new possible fields of research for media studies: Media Archaeological Theory; Experimental Media Archaeology; Media Archaeology at the Interface. The book includes essays from acknowledged experts in this expanding field, such as Thomas Elsaesser, Wanda Strauven and Jussi Parikka. The chapters presented in this International Volcanological Special Issue consider the characteristic features of a single volcano and/or a number of volcanoes worldwide (Jos and Biu Plateau volcanic provinces, Nigeria; Kachchh Rift Zone, Gujarat, India; Guamsan Caldera, Cheongsong, Korea; Somma-Vesuvius volcano, Napoli, Italy) in terms of future volcanic activity. The technical methods used are wide, innovative, as well as classic and reflect the knowledge presented in each chapter. The last chapter, however, deals with a new conceptual and methodological approach for

the evaluation of volcanic risk. All these volcanoes (except Somma-Vesuvius volcano) are poorly studied so they deserve more attention, which is the goal of this volcanological book. Further studies are welcome to deepen the knowledge of each of the volcanoes presented.

Why are so many contemporary comics and graphic narratives written as memoirs or documentaries of traumatic events? Is there a specific relationship between the comics form and the documentation and reportage of trauma? How do the interpretive demands made on comics readers shape their relationships with traumatic events? And how does comics' documentation of traumatic pasts operate across national borders and in different cultural, political, and politicised contexts? The sixteen chapters and three comics included in *Documenting Trauma in Comics* set out to answer exactly these questions. Drawing on a range of historically and geographically expansive examples, the contributors bring their different perspectives to bear on the tangled and often fraught intersections between trauma studies, comics studies, and theories of documentary practices and processes. The result is a collection that shows how comics is not simply related to trauma, but a generative force that has become central to its remembrance, documentation, and study.

The best way to get fresh, tasty ingredients is to grow your own. Italians have known this for centuries, and no Italian house, apartment, school or office is complete unless it has a little bit of space in which to grow tomatoes, herbs, salad leaves and whatever else can be crammed in. From Seed to Plate covers that very Italian tradition of growing to cook, using recipes handed down from cook to cook, often through generations. Paolo Arrigo shares his family's practical traditions and 'passione' for food, guiding readers on the best varieties to grow, offering growing tips and explaining how all the resulting delicious produce should be best prepared, cooked and preserved. Including recipes from Paolo's own family, delicatessens, favourite restaurants and chefs such as Giorgio Locatelli, Antony Worrall-Thompson, Rose Prince, Hugh Fearnley Whittingstall and many more, this is a book that persuades us to look at food in a different way - the Italian way.

us experience adversity by the age of 20. But these experiences are often kept secret, as are our courageous battles to overcome them. Drawing on nearly two decades of work with clients and students, Jay tells the tale of ordinary people made extraordinary by these all-too-common experiences, everyday superheroes who have made a life out of dodging bullets and leaping over obstacles, even as they hide in plain sight as doctors, artists, entrepreneurs, lawyers, parents, activists, teachers, students and readers. She gives a voice to the supernormals among us as they reveal not only "How do they do it?" but also "How does it feel?" These powerful stories, and those of public figures from Andre Agassi to Jay Z, will show supernormals they are not alone but are, in fact, in good company. Marvelously researched and compassionately written, this exceptional book narrates the continuing saga that is resilience as it challenges us to consider whether -- and how -- the good wins out in the end.

In this exciting interdisciplinary collection, scholars, activists, and media producers explore the emergence of Indigenous media: forms of media expression conceptualized, produced, and created by Indigenous peoples around the globe. Whether discussing Maori cinema in New Zealand or activist community radio in Colombia, the contributors describe how native peoples use both traditional and new media to combat discrimination, advocate for resources and rights, and preserve their cultures, languages, and aesthetic traditions. By representing themselves in a variety of media, Indigenous peoples are also challenging misleading mainstream and official state narratives, forging international solidarity movements, and bringing human rights violations to international attention. *Global Indigenous Media* addresses Indigenous self-representation across many media forms, including feature film, documentary, animation, video art, television and radio, the Internet, digital archiving, and journalism. The volume's sixteen essays reflect the dynamism of Indigenous media-making around the world. One contributor examines animated films for children produced by Indigenous-owned companies in the United States and Canada. Another explains how Indigenous media producers in Burma (Myanmar) work with NGOs

and outsiders against the country's brutal regime. Still another considers how the Ticuna Indians of Brazil are positioning themselves in relation to the international community as they collaborate in creating a CD-ROM about Ticuna knowledge and rituals. In the volume's closing essay, Faye Ginsburg points out some of the problematic assumptions about globalization, media, and culture underlying the term "digital age" and claims that the age has arrived. Together the essays reveal the crucial role of Indigenous media in contemporary media at every level: local, regional, national, and international.
