"As Robert Art makes clear in a groundbreaking conclusion, those results have been mixed at best. Art dissects the uneven performance of coercive diplomacy and explains why it has sometimes worked and why it has more often failed."--BOOK JACKET.

This handbook offers a comprehensive overview of South Asian foreign policy, examining the complex history and present state of South Asian foreign policy, the foreign policy of the countries of the region, as well as their relationships with their neighbors and key external players, such as China and the United States, in an effort to understand South Asia's place in the world order. It illustrates the future trajectory of foreign policy in the region and analyses future of regional arrangements like SAARC (South Asian Association for Regional Cooperation) and BIMSTEC. The handbook is structured in five parts, each representing a focused area of enquiry: Foreign Policy Relations within South Asia Relations within Indo-Pacific Relations with China, Europe and the United States Security A carefully selected collection of 26 chapters written by experts on South Asian foreign, economic, and security policy, this handbook provides an objective yet accessible overview of the history and current state of foreign policy of each country and the

region. It is an authoritative reference work for academics and students as well as international think tanks, research institutes, and non-governmental organizations working on South Asian Politics, Asian Politics, Foreign Politics, International Affairs, World History, and International Relations. The Captain's account brings to vivid life the horror of seven days inside the hijacked IC 814, on its way from Kathmandu to Delhi. Nearly 188 passengers and crew were pushed beyond the limits of normal human endurance and forced to confront situations they had never imagined: bloodshed, starvation and the crippling uncertainty of living under the constant threat of death.

Weeks before India announced a total lockdown to combat the Covid-19 pandemic in March 2020, the drama and governance coup in Madhya Pradesh political theatre was already speaking. Jyotiraditya Scindia dumped the Congress overnight for the Bharatiya Janata Party (BJP) bringing down the former from power in the state. Many saw the return of the prodigal grandson as the reunion of the political dynasty of Scindias under BJP's catch-all umbrella. Jostling to spill over, along with priceless jewels in the treasury of Jai Vilas palace — the Scindias' royal abode in Gwalior — are many carefully buried secrets. Some are best hidden away, such as the Gwalior monarchs' controversial role during the revolt of 1857. Others need to be kept

out of sight for diplomatic causes, such as the Rajmata's excessive dependency on her 'Rasputin' and the resultant mistrust of her only son, Madhavrao. One of the bigger questions is the palace alleged and under-probed role in Mahatma Gandhi's assassination. It is perhaps because of these unsolved mysteries that curiosity about the Scindias — a family that has given India many a salesperson across party lines — continues to dominate India's public imagination. With political intrigue, palace conspiracies, cut-throat rivalry and an ugly public feud, betrayals and property wars fought in courts, and siblings that do not look eye to eye, the Scindias make tantalizing headlines. With a wealth of information about the Gwalior royals, *The House of Scindias* is their most definitive and revealing biography.

to the Prime Minister of Israel and Head, Israel National Security Council (2009-2011) “An important book on a complex security problem. Issues have been analysed in depth based on quality research. Insightful and well-balanced in describing the way forward.” Naresh Chandra, Indian Ambassador to the USA (1996-2001) and Cabinet Secretary (1990-1992). “An objective and clinical account of the origins, aims, extra-territorial links and modus-operandi, of a growingly dangerous terrorist organization that challenges the federal, democratic, secular and pluralistic ethos of India’s polity. The authors have meticulously researched and analysed the multi-faceted challenges that the “Indian Mujahideen” poses and realistically dwelt on the ways in which these challenges could be faced and overcome.” G. Parthasarathy, High Commissioner of India to Australia (1995-1998) and Pakistan (1998-2000). This book provides the first in-depth look at how advanced mathematics and modern computing technology can influence insights on analysis and policies directed at the Indian Mujahideen (IM) terrorist group. The book also summarizes how the IM group is committed to the destabilization of India by leveraging links with other terror groups such as Lashkar-e-Taiba, and through support from the Pakistani Government and Pakistan’s intelligence service. Dongri to Dubai is the first ever attempt to chronicle the history of the Mumbai mafia. It is the story of notorious gangsters like Haji Mastan, Karim Lala, Varadarajan Mudaliar, Chhota Rajan, Abu Salem, but above all, it is the story of a young man who went astray despite having a father in the police force. Dawood Ibrahim was initiated into crime as a pawn in the hands of the Mumbai police and went on to wipe out the competition and eventually became the Mumbai police's own nemesis. The narrative encompasses several milestones in the history of crime in India, from the rise of the Pathans, formation of the Dawood gang, the first ever supari, mafia's nefarious role in Bollywood, Dawood's move to Karachi, and Pakistan's subsequent alleged role in sheltering one of the most wanted persons in the world. This story is primarily about how a boy from Dongri became a don in Dubai, and captures his bravado, cunningness, focus, ambition, and lust for power in a gripping narrative. The meticulously researched book provides an in-depth and comprehensive account of the mafia's games of supremacy and internecine warfare.

This book gives readers an in-depth and up-to-date account of India's external and internal threats in a deteriorating global security environment. It shows that while partnerships with some countries have strengthened, anxieties persist with others such as China and Pakistan. Similarly, India has not been able to cope with the challenges of internal security emerging from violence in Kashmir, insurgency in the north-east, to mention a few. Problems of global terrorism and global warming stare us in the face. Tensions between major powers, threats and counter-threats between major and middle powers, and international hotspots like Georgia and Afghanistan remind us that there is intense competition for strategic space. India as an upcoming power is treading its path carefully and is developing meaningful partnerships with all major powers. China's reluctance to proceed further in resolving the boundary dispute with India, its reported incursions on the borders and its rapid military modernisation has caused anxiety in India. India is nevertheless upgrading its military capability to meet any Chinese threat. Pakistan's lack of adequate action in punishing those responsible for the 26/11 Mumbai terrorist attack and its reluctance to destroy the infrastructure of terrorism in Pakistan has put a question mark on the future of India Pakistan relations. These and various other threats and challenges are discussed in this volume, latest in a unique series with contributions from academics, political commentators and military personnel.

The stunning Lolab Valley of Kashmir. Cold. Crisp. Serene. Punctuated by the blood curdling violence that rips apart the stillness of this paradise. Within the militancy torn valley nestles the ravaged lives of the people who inhabit it. And of the men in uniform who fight for their country. Set against the backdrop of this rugged milieu is the clash of two charismatic leaders-the inimitable Major Hariharan of the Indian Special Forces, and the volatile battle hardened Pakistani mujahid,

Follow the thrilling cat-and-mouse game between two passionate men of war, a chase that only one of them will survive...

India's fault lines run wide and deep. Some of them go back centuries, others are of comparatively recent origin. The myriad villains these fault lines have spawned include rapists, murderers, terrorists, prophets of religious hatred, corrupt politicians, upholders of abhorrent caste traditions, opponents of free speech and dissent, apologists for regressive cultural practices, and external adversaries who try to destabilize our borders. All of them are responsible for impeding the country's progress, destroying the lives of numberless innocents, usually the poorest and most vulnerable of our people, and besmirching the democratic, plural, free and secular nature of our society. Set against these enemies of our nation's promise are the heroic ones—the poor, illiterate woman who was gang-raped but helped change the nation's attitude towards women through her determined fight for justice; the young soldier whose courage and sacrifice in the high Himalayas was an inspiration to his comrades fighting the Kargil War; the wife whose husband was beheaded by Maoist terrorists, yet sought not revenge but succour for the poor and underprivileged; and the son of the village blacksmith who was lynched by a mob of religious fundamentalists appealing for an end to discord and sectarian violence. These stories, and dozens of others like them, map our country's fault lines. In this book, Barkha Dutt recounts the ones that have left an indelible mark on her. Taken

Srinagar in the winter of 1989 was an eerie ghost town witnessing the beginnings of a war dance. The dam burst the night boys from the separatist JKLF group were freed in exchange for the release of Rubaiya Sayeed, the Union home minister's daughter. As Farooq Abdullah had predicted, the government's caving in emboldened many Kashmiris into thinking that azaadi was possible. It was a long, slow haul to regaining control. From then to now, A.S. Dulat has had a continuous engagement with Kashmir in various capacities. The initiatives launched by the Vajpayee government, in power from 1998 to 2004, were the high point of this constant effort to keep balance in a delicate state. In this extraordinary memoir, Dulat gives a sweeping account of the difficulties, successes and near triumphs in the effort to bring back Kashmir from the brink. He shows the players, the politics, the strategies and the true intent and sheer ruthlessness of the meddlers from across the border. Kashmir: The Vajpayee Years paints an unforgettable portrait of politics in India's most beautiful but troubled state. Meera Bai, one of India's most well-known mystic poet is also a Rajput princess of the Rathor clan. Married to Mewar's Crown Prince Bhoj Raj, son of Rana Sanga, the most chivalrous and powerful warrior king ruling medieval India's largest and

wealthiest Rajput kingdoms, her charmed life revolves around her love for Krishna. Passionate and devoted to her divine consort, this retelling of Meera's story is a celebration of her life as a princess, a brave daughter-in-law of Mewar, a poet, and a seeker of divine union with her God. Steeped in Rajput traditions, customs and folklore, this novel explores the relationship between the physical and the metaphysical.

When India and Pakistan held nuclear tests in 1998, they restarted the clock on a competition that had begun half a century earlier. Nuclear weapons restored strategic parity, erasing the advantage of India's much larger size and conventional military superiority. Yet in the years that followed Pakistan went on to lose decisively to India. It lost any ability to stake a serious claim to Kashmir, a region it called its jugular vein. Its ability to influence events in Afghanistan diminished. While India's growing

economy won it recognition as a rising world power, Pakistan became known as a failing state. Pakistan had lost to India before but the setbacks since 1998 made this defeat irreversible. Defeat is an Orphan follows the rollercoaster ride through post-nuclear India-Pakistan, from bitter conflict in the mountains to military confrontation in the plains, from the hijacking of an Indian plane to the assault on Mumbai. Nuclear weapons proved to be Pakistan's undoing. They encouraged a reckless reliance on militant proxies even as the jihadis spun out of control outside and inside Pakistan. By shielding it from retaliation, the nuclear weapons also sealed it into its own dysfunction -- so much so that the Great South Asian War, fought on-and-off since 1947, was not so much won by India as lost by Pakistan. This book brings together striking botanical art of Indian origin spanning a period of 300 years, focussing on the 18th and 19th centuries. Drawn mostly from original works held in the collections of the Royal Botanic Gardens, Kew, some of the paintings have never been published before. They showcase the richness and variety of art commissioned from talented, mostly unknown, Indian artists who made a substantial contribution to the documentation of the flora of the Indian subcontinent. A foreword written by Sita Reddy places the collections in contemporary context. The book concludes with works from a new generation of

botanical artists in India, who excite interest today. When composer A.R. Rahman's first film Roja was released in 1992, his astonishing music with its other-worldly melodies, tonal texture, pulsating rhythms made an instant impact in India. His abundantly flowing talent has given life to the scores of over a hundred films, including Dil Se, Bombay, Lagaan, Warriors of Heaven and Earth, 127 Hours and Jodhaa Akbar. According to a recent estimate by the BBC, 150 million copies of his albums have sold worldwide. A.R. Rahman has won a host of awards, together with a Golden Globe, a Bafta, two Oscars and two Grammys for his score in Slumdog Millionaire. In 2010, he received the Padma Bhushan, the third highest civilian honour, awarded by the Government of India. Despite all his great success, Rahman remains a deeply private person, shying away from the glitz and glamour of show business. A.R. Rahman: The Spirit of Music is in the form of biographical conversations between the composer and Nasreen Munni Kabir in which we hear of Rahman's amazing journey from modest beginnings to an assured place in world music history.

Mannu Bhandari's genius lies not in elevating women to heroines or superior beings; rather, she forces us to acknowledge that flawed, confused, and self-centered women are as worthy of agency and respect. She wrote among literary giants who were mostly men, but carved a singular space for herself with her unflinching gaze at the hypocrisy of a society that claims to venerate women yet balks at giving them the keys to their shackles. These 18 stories are representative of her wonderful insights into the inner life of women – her characters span the spectrum from rural to urban, illiterate to educated, homemakers to career professionals. Through all the stories runs a vein of gentle mockery – the inimitable Mannu Bhandari style.

Fertility specialists are constantly looking for ways to improve the chances of pregnancy through IVF or other assisted reproductive techniques (ART).

and improve the chances of success. This book is a practical guide to the use of adjuvants in infertility for clinicians and trainees. Divided into ten sections, the text begins with an overview of the rationale for additional therapy in IVF. The next section examines different types of adjuvant therapy and their pros and cons. Topics include medical nutrition therapy, nutraceuticals, antioxidants, micronutrients, and reactive oxygen species. Each of the following sections covers adjuvant use for improving a specific fertility issue – PCOS, ovarian reserve, uterine blood flow, endometrial receptivity, embryo implantation, and male subfertility. The final sections discuss the impact of thyroid autoimmunity on the outcome of ART, and the use of surgery as an adjuvant in infertility.

Key points

- Practical guide to the use of adjuvants in infertility
- Covers various types of adjuvant and their use for different fertility issues
- Includes discussion on surgery as an adjuvant
- Highly illustrated with clinical photographs and diagrams

This book describes various strategies for the synthesis of green nanoparticles using plant extracts and microbes, including the advantages and disadvantages of different methods and their applications. After discussing strategies for and the potential of green synthesis of noble metal nanoparticles, it highlights the role of the solvent system. The book then explores the stability/toxicity of nanoparticles and the associated-surface engineering techniques for achieving biocompatibility, and examines the antimicrobial efficacy of green nanoparticles with regard to various bacterial pathogens, as well as the underlying cytotoxicity mechanisms. Lastly, the book addresses the potential applications of various green nanoparticles in cancer theranostics, and reviews a

In *Pakistan at the Crossroads*, top international scholars assess Pakistan's politics and economics and the challenges faced by its civil and military leaders domestically and diplomatically. Contributors examine the state's handling of internal threats, tensions between civilians and the military, strategies of political parties, police and law enforcement reform, trends in judicial activism, the rise of border conflicts, economic challenges, financial entanglements with foreign powers, and diplomatic relations with India, China, Iran, Saudi Arabia, Afghanistan, and the United States. In addition to ethnic strife in Baluchistan and Karachi, terrorist violence in Pakistan in response to the American-led military intervention in Afghanistan and in the Federally Administered Tribal Areas by means of drones, as well as to Pakistani army operations in the Pashtun area, has reached an unprecedented level. There is a growing consensus among state leaders that the nation's main security threats may come not from India but from its spiraling internal conflicts, though this realization may not sufficiently dissuade the Pakistani army from targeting the country's largest neighbor. This volume is therefore

critical to grasping the sophisticated interplay of internal and external forces complicating the country's recent trajectory.

The purpose of this electronic book is to provide policymakers and their advisers with up-to-date, comprehensive analyses of the central facets of global economic imbalances and to identify and evaluate potential national and systemic responses to this challenge. To break down the many facets of this collective economic challenge, leading experts were asked to address one of the following policy-relevant questions. 1. How large are contemporary current account imbalances? Why do they persist? 2. What are the systemic costs of imbalances? 3. What are the lessons from previous attempts to rebalance the global economy? 4. What would rebalancing entail? Which policies must change? Is collective action needed? 5. What is the political viability of proposals to rebalance national economies? 6. Are new system-wide accords needed to promote rebalancing or to discourage persistent imbalances?

This book features high-quality papers presented at the International Conference on Computational Intelligence and Communication Technology (CICT 2019) organized by ABES Engineering College, Ghaziabad, India, and held from February 22 to 23, 2019. It includes the latest advances and research findings in fields of computational science and communication such as communication & networking, web & informatics, hardware and software designs, distributed & parallel processing, advanced software engineering, advanced database management systems and bioinformatics. As such, it is of interest to research scholars, students, and engineers around the globe.

The book covers a variety of topics which include data mining and data warehousing, high performance computing, parallel and distributed computing, computational intelligence, soft computing, big data, cloud computing, grid computing, cognitive computing, image processing, computer networks, wireless networks, social networks, wireless sensor networks, information and network security, web security, internet of things, bioinformatics and geoinformatics. The book is a collection of best papers submitted in the First International Conference on Computational Intelligence and Informatics (ICCII 2016) held during 28-30 May 2016 at JNTUH CEH, Hyderabad, India.
