In the tradition of Octavia Butler, here is radical self-help, society-help, and planet-help to shape the futures we want. Change is constant. The world, our bodies, and our minds are in a constant state of flux. They are a stream of ever-mutating, emergent patterns. Rather than steel ourselves against such change, Emergent Strategy teaches us to map and assess the swirling structures and to read them as they happen, all the better to shape that which ultimately shapes us, personally and politically. A resolutely materialist spirituality based equally on science and science fiction: a wild feminist and afro-futurist ride! adrienne maree brown, co-editor of Octavia's Brood: Science Fiction from Social Justice Movements, is a social justice facilitator, healer, and doula living in Detroit.

Canadian culture, this is the book for anyone who's ever thought "O, Canada!".

Insightful and interdisciplinary, this book considers the movement of people around the world and how contemporary artists contribute to our understanding of it. In this timely volume, artists and thinkers join in conversation around the topic of global migration, examining both its cultural impact and the culture of migration itself. Individual voices shed light on the societal transformations related to migration and its representation in 21st-century art, offering diverse points of entry into this massive phenomenon and its many manifestations. The featured artworks range from painting, sculpture, and photography to installation, video, and sound art, and their makers--including Isaac Julien, Richard Mosse, Reena Saini Kallat, Yinka Shonibare MBE, and Do Ho Suh, among many others--hail from around the world. Texts by experts in political science, Latin American studies, and human rights, as well as contemporary art, expand upon the political, economic, and social contexts of migration and its representation. The book also includes three conversations in which artists discuss the complexity of making work about migration. Amid worldwide tensions surrounding refugee crises and border security, this publication provides a nuanced interpretation of the current cultural moment. Intertwining themes of memory, home, activism, and

This facsimile edition collects all 19 issues of 'Art-Rite' magazine, edited by art critics Walter Robinson and Edit DeAk from 1973 to 1978. Robinson, DeAk and a third editor, Joshua Cohn, met as art history students at Columbia University, and were inspired to found the magazine by their art criticism teacher, Brian O'Doherty. 'Art-Rite', cheaply produced on newsprint, served as an important alternative to the established art magazines of the period. 'Art-Rite' ran for only five years, and published only 19 issues. But in that time the magazine featured contributions from hundreds of artists, a list that now reads like a who's-who of 1970s art: Yvonne Rainer, Gordon Matta-Clark, Alan Vega (Suicide), William Wegman, Nancy Holt, Jack Smith, Dorothea Rockburne, Robert Morris, Adrian Piper, Laurie Anderson, Carolee Schneemann and Carl Andre; critics such as Lucy Lippard contributed writing. Through its single-artist issues and its thematic issues on performance, video and artists' books, 'Art-Rite' championed the new art of its era.

Behavioral finance presented in this book is the second-generation of behavioral finance. The first generation, starting in the early 1980s, largely accepted standard finance's notion of people's wants as "rational" wants—restricted to the utilitarian benefits of high returns and low risk. That first generation commonly described people as

Access Free Richard Simmons 2019 Wall Calendar

“irrational”—succumbing to cognitive and emotional errors and misled on their way to their rational wants. The second generation describes people as normal. It begins by acknowledging the full range of people’s normal wants and their benefits—utilitarian, expressive, and emotional—distinguishes normal wants from errors, and offers guidance on using shortcuts and avoiding errors on the way to satisfying normal wants. People’s normal wants include financial security, nurturing children and families, gaining high social status, and staying true to values. People’s normal wants, even more than their cognitive and emotional shortcuts and errors, underlie answers to important questions of finance, including saving and spending, portfolio construction, asset pricing, and market efficiency. Read the Wall Street Journal Bestseller for "cultivating intense focus" for fast, powerful performance results for achieving success and true meaning in one's professional life (Adam Grant, author of Give and Take). Deep work is the ability to focus without distraction on a cognitively demanding task. It's a skill that allows you to quickly master complicated information and produce better results in less time. Deep Work will make you better at what you do and provide the sense of true fulfillment that comes from craftsmanship. In short, deep work is like a super power in our increasingly competitive twenty-first century economy. And yet, most people have lost the ability to go deep—spending their days instead in a frantic blur of e-mail and social media, not even realizing there's a better way. In Deep Work, author and professor Cal Newport flips the narrative on impact in a connected age. Instead of arguing distraction is bad, he

instead celebrates the power of its opposite. Dividing this book into two parts, he first makes the case that in almost any profession, cultivating a deep work ethic will produce massive benefits. He then presents a rigorous training regimen, presented as a series of four "rules," for transforming your mind and habits to support this skill. 1. Work Deeply 2. Embrace Boredom 3. Quit Social Media 4. Drain the Shallows A mix of cultural criticism and actionable advice, Deep Work takes the reader on a journey through memorable stories--from Carl Jung building a stone tower in the woods to focus his mind, to a social media pioneer buying a round-trip business class ticket to Tokyo to write a book free from distraction in the air--and no-nonsense advice, such as the claim that most serious professionals should quit social media and that you should practice being bored. Deep Work is an indispensable guide to anyone seeking focused success in a distracted world. A heartwarming series of stories and practical wisdom on entrepreneurship and wealth in the vein of Rich Dad, Poor Dad, written by a financially independent father for his ambitious son. Soon after he opened his vineyard for business many years ago, the Wealthy Gardener noticed a puzzling fact. Everyone wanted money, but only a few people managed to accumulate it. The reason, he realized, is that most people focus on short term gains instead of achieving lasting wealth. As he grew old and aware of his dwindling time on this Earth, the Wealthy Gardener began to share his hard-earned wisdom with the financially troubled in his

community, patiently mentoring those who asked for his practical advice on the ways of prosperity. The parable of the Wealthy Gardener is far more than an admonishment to earn more or spend less; it is about timeless principles. As his lessons reveal, financial freedom is a means to power and control over our lives. Without money, we are subject to the demands and whims of others. With money, we are sheltered from the storm, and we can extend that shelter to our loved ones. Poised to become an intimate financial classic, *The Wealthy Gardener* will inspire readers to find their own noble purpose and relieve their money worries once and for all. No matter your income level, skillset, or unique economic disadvantages, the lessons in this book will show you the path forward. All you need is the will to work, the desire to succeed, and the motivation to learn.

A based-on source for the Warner Bros. film *Richard Jewell*, starring Sam Rockwell, Kathy Bates, Jon Hamm, Olivia Wilde, and Paul Walter Hauser† ‹ "Meticulously reported, bracingly written, full of memorable and bizarre characters, the book casts a wary eye on the worlds of law enforcement and journalism, and their multiple failures in this tale. It's a story with no winners – except for readers of this terrific book."† ‹ — Jeffrey Toobin The masterful true-crime account of the 1996 Centennial Olympic Park bombing that captured the world's attention, and the heroic security guard-turned-suspect at the heart of it all On July 27, 1996, a hapless former cop turned hypervigilant security guard named Richard Jewell spotted a suspicious bag in Atlanta's Centennial Olympic Park, the town square of the 1996 Summer Games. Inside was a bomb, the largest of its kind in FBI and ATF history. Minutes later, the bomb detonated amid a crowd of fifty thousand people. But thanks to Jewell, it only wounded 111 and killed two, not the untold scores who would have otherwise died. With the eyes of the world on Atlanta, the Games continued.

But the pressure to find the bomber was intense. Within seventy-two hours, Jewell went from the hero to the FBI's main suspect. The news leaked and the intense focus on the guard forever changed his life. The worst part: It let the true bomber roam free to strike again. What really happened that evening during the Olympic Games? The attack left a mark on American history, but most of what we remember is wrong. In a triumph of reporting and access in the tradition of the best investigative journalism, former U.S. Attorney Kent Alexander and former Wall Street Journal reporter Kevin Salwen reconstruct all the events leading up to, during, and after the Olympic bombing from mountains of law enforcement evidence and the extensive personal records of key players, including Richard himself. The Suspect, the culmination of more than five years of reporting, is a gripping story of the rise of domestic terrorism in America, the advent of the 24/7 news cycle, and an innocent man's fight to clear his name.

The first comprehensive study of these rare, influential objects, documenting a formative moment in the noted photographer's early career This elegant book unites all of the known carte postale prints by the photographer André Kertész (1894-1985), including portraits, views of Paris, careful studio scenes, and exquisitely simple still lifes. Essays shed new light on the artist's most acclaimed images; themes of materiality, exile, and

communication; his illustrious and bohemian social circle; and the changing identity of art photography. Playful yet refined, the book's design reflects the spirit of 1920s Paris while underscoring the modernity of the catalogue's more than 250 illustrated works. Kertész made his rigorously composed prints on inexpensive but lush postcard stock, sharing them with friends and sending them back to family in Hungary. The works reveal the artist learning his craft as he encountered an international group of modernists--including Piet Mondrian, Fernand Léger, and Joseph Csáky--in the interwar metropolis. Prized by collectors as well as by Kertész himself, the cartes postales influenced his compositions and the intimate scale of his picture making for decades.

Included within this publication are forty-five 'mudworks' by Richard Long, produced especially for the book and accompanied by text from the artist himself. earned his international reputation in that same decade with sculptures that he made as the result of epic walks, sometimes lasting days on end, that he went on to remote parts of the world, including desert regions of Africa as well as Australia, Canada, Japan, Switzerland and Norway. Since 1981 he has also engaged in painting by using liquid-like mud and applying it by hand, establishing a dialogue between the primal gesture of the hand-print and the formal elegance of its display. He has stressed that the meaning of his work rests in the visibility of his actions rather than in the representation of a particular landscape. In 2009 the Tate Britain, London (UK) dedicated a large retrospective exhibition to this exceptional artist.
