Agafya is a short story by Anton Pavlovich Chekhov detailing a late night encounter between an intelligent but lazy village dropout and the peasant wife of a signalman. Anton Pavlovich Chekhov, (29 January 1860 - 15 July 1904) was a Russian physician, dramaturge and author who is considered to be among the greatest writers of short stories in history. His career as a dramatist produced four classics and his best short stories are held in high esteem by writers and critics. Chekhov practised as a medical doctor throughout most of his literary career: "Medicine is my lawful wife", he once said, "and literature is my mistress." Chekhov renounced the theatre after the disastrous reception of *The Seagull* in 1896, but the play was revived to acclaim in 1898 by Constantin Stanislavski's Moscow Art Theatre, which subsequently also produced Chekhov's *Uncle Vanya* and premiered his last two plays, *Three Sisters* and *The Cherry Orchard*. These four works present a challenge to the acting ensemble as well as to audiences, because in place of conventional action Chekhov offers a "theatre of mood" and a "submerged life in the text." Chekhov had at first written stories only for financial gain, but as his artistic ambition grew, he made formal innovations which have influenced the evolution of the modern short story. His originality consists in an early use of the stream-of-consciousness technique, later adopted by James Joyce and other

modernists, combined with a disavowal of the moral finality of traditional story structure. He made no apologies for the difficulties this posed to readers, insisting that the role of an artist was to ask questions, not to answer them. Always modest, Chekhov could hardly have imagined the extent of his posthumous reputation. The ovations for the play, *The Cherry Orchard*, in the year of his death showed him how high he had risen in the affection of the Russian public-by then he was second in literary celebrity only to Tolstoy, who outlived him by six years-but after his death, Chekhov's fame soon spread further afield. Constance Garnett's translations won him an English-language readership and the admiration of writers such as James Joyce, Virginia Woolf, and Katherine Mansfield. The issues surrounding the close similarities between Mansfield's 1910 story "The Child Who Was Tired" and Chekhov's "Sleepy" are summarised in William H. New's *Reading Mansfield and Metaphors of Reform* The Russian critic D.S. Mirsky, who lived in England, explained Chekhov's popularity in that country by his "unusually complete rejection of what we may call the heroic values." In Russia itself, Chekhov's drama fell out of fashion after the revolution but was later adapted to the Soviet agenda, with the character Lopakhin, for example, reinvented as a hero of the new order, taking an axe to the cherry orchard. One of the first non-Russians to praise Chekhov's plays was George Bernard Shaw, who subtitled his *Heartbreak House* "A Fantasia in the Russian Manner on English Themes" and noted similarities between the predicament of the British landed class and that of their Russian counterparts as

Miracles happen today. Do you want to increase your faith? Read about miracles. True stories of God's faithfulness, love, and power are woven together with art, poetry and scripture into a tapestry made of the colors of the rainbow that demonstrate the many aspects of faith. A woman finds herself in a car accident on a lonely Nevada highway gazing at her two daughters sprawled on the road. She screams in terror for help. Someone places a white gold cross in the palm of her hand. This changes everything. "A White Gold Cross," one of the true stories found in "Faith Colors, Encounters with God in Living Faith," explores the power of faith in God to transform the outcome of a terrible crisis. This story is found in the section called White Faith, the kind of faith that strengthens the inner heart to persevere. A son prays in earnest while the emergency team from the fire station try to revive his father. After the paramedics give up and permission is granted to stop CPR, the father miraculously begins to breathe on his own. But will he survive long enough to take care of his unfinished business? This story is found under Blue Faith, the kind of faith that looks up from a dark pit to find hope. These testimonies and others, including some of the author's own experiences, are grouped into the colors of the rainbow to highlight important aspects of faith. Poems and prophetic art, intensifying the impact of the messages, are found throughout the book. Each color section concludes with a prayer to draw the reader's heart closer to God. Scriptures and colorful prophetic pictures featured in this book highlight significant

attributes of faith that are bound to spark hope in God and His promises found in the Bible.

The turn of the twentieth century witnessed the birth of two distinct philosophical schools in Europe: analytic philosophy and phenomenology. The history of 20th-century philosophy is often written as an account of the development of one or both of these schools, as well as their overt or covert mutual hostility. What is often left out of this history, however, is the relationship between the two European schools and a third significant philosophical event: the birth and development of pragmatism, the indigenous philosophical movement of the United States. Through a careful analysis of seminal figures and central texts, this book explores the mutual intellectual influences, convergences, and differences between these three revolutionary philosophical traditions. The essays in this volume aim to show the central role that pragmatism played in the development of philosophical thought at the turn of the twentieth century, widen our understanding of a seminal point in the history of philosophy, and shed light on the ways in which these three schools of thought continue to shape the theoretical agenda of contemporary philosophy.

blends poignant romance and bittersweet wit. This classic love story takes place on the De la Garza ranch, as the tyrannical owner, Mama Elena, chops onions at the kitchen table in her final days of pregnancy. While still in her mother's womb, her daughter to be weeps so violently she causes an early labor, and little Tita slips out amid the spices and fixings for noodle soup. This early encounter with food soon becomes a way of life, and Tita grows up to be a master chef, using cooking to express herself and sharing recipes with readers along the way.

A collection of short stories along with poems to express a college woman's encounters with the three most important men in her life thus far. In this book the reader will go on a journey living the love and heart breaking experiences the author writes of and eventually being guided to the self loving woman she is today. These poems represent love, honesty, heart break, and realization.

In this revised and expanded edition of Bloodball, J. G. Van Tine probes the mind-set that dominates media sport. By uncovering covert games, tactics and payoffs, he redefines the hero worship that vaunts a tiny minority while luring the majority into conflicted passivity. As the sporting audience rarely glimpses those who run the corporations and own the teams, Bloodball attempts to ease this relation by revealing how and why the media disguise corporate control and power plays, among them the History Fob, Getting Wa-Wa, Branding, and Your Heart Belongs to Daddy.

Based on Bentley and Ziegler's best-selling, comprehensive survey text, *Traditions & Encounters: A Brief Global History* provides a streamlined account of the cultures and interactions that have shaped world history. The text's strong hallmark themes of traditions (the formations and development of the world's major societies) and encounters (cross-cultural interactions and exchanges) bring focus to the human experience and help turn the giant story of world history into something more manageable to teach and learn. At the same time, an effective part structure organizes developments into seven eras of global history, putting events into perspective and creating a framework for cross-cultural comparisons. With an engaging narrative, visual appeal, extended pedagogy, and a strong emphasis on critical thinking, this concise version offers enhanced flexibility and affordability without sacrificing the features that have made the complete text a favorite among instructors and students alike.

Right from the beginning of humankind, God has never deprived a people of his grace and revelation. In fact, God uses people's environment and culture to communicate his will. There is no single religion that can claim to have the exclusive possession of God's revelation, for God is too immense to be confined within one faith. Hence, it was erroneous, blasphemous, and misleading for some of the early Christian missionaries to Africa to claim that they had brought God to Africa, a mentality that implied the non-existence of God in Africa before their arrival. Of course, God was already in Africa, but the missionaries either failed to discern his presence or just disregarded the traces of his existence. This book explores the religious

beliefs, practices, and values of the indigenous people of Africa at the time of the early missionaries' arrival, with particular reference to the Shona people of Zimbabwe. It also evaluates the extent of the missionaries' successes and challenges in converting Africans to Christianity. It finally surveys how African Christians have remained attached to the indigenous religious beliefs that used to provide answers to their existential questions.

THE Translation of this venerable Piece of Antiquity is undertaken upon a double Score; being designed as well to entertain the Curiosity of the Learned, as to supply the Defects of the Ignorant. If the original Language would have been more acceptable to the one, it would have been less intelligible to the other. I cannot, without uttering a Falsity, venture to affirm that so singular and valuable a Piece will be made Public, at least as yet: And in the mean Time I shall flatter myself, that this little Essay may contribute in some sort or other to the diversion, if not Instruction, of People in every Condition of Life. If this is well received, the other Parts will make their Appearance at proper Distances of Time. I publish no more at present, because I would not be thought to impose too much upon any one's Patience; as for losing my own Labour, I am under no bad Apprehensions about that; for the Reader cannot reject with a greater Disdain, than I have translated with Pleasure, the Contents of this Book.

This is the first complete English translation of Pavel Florensky's original and ambitious attempt to arrive at a geometric representation of imaginary numbers, in a context that had already captured the attention of other mathematicians, including Gauss, Argan, Cauchy and Bellavitis. Florensky did not limit his attempt solely to complex projective geometry, but extended it to encompass Ptolemaic-Dantean cosmology and Einstein's Principle of Relativity, as well as a new epistemological theory. The resulting treatise combines various disciplines and explores

the relationship between an immanent realm of knowledge and a transcendent one. Culture of Encounters documents the fascinating exchange between the Persian-speaking Islamic elite of the Mughal Empire and traditional Sanskrit scholars, which engendered a dynamic idea of Mughal rule essential to the empire's survival. This history begins with the invitation of Brahman and Jain intellectuals to King Akbar's court in the 1560s, then details the numerous Mughal-backed texts they and their Mughal interlocutors produced under emperors Akbar, Jahangir (1605–1627), and Shah Jahan (1628–1658). Many works, including Sanskrit epics and historical texts, were translated into Persian, elevating the political position of Brahmans and Jains and cultivating a voracious appetite for Indian writings throughout the Mughal world. The first book to read these Sanskrit and Persian works in tandem, Culture of Encounters recasts the Mughal Empire as a polyglot polity that collaborated with its Indian subjects to envision its sovereignty. The work also reframes the development of Brahman and Jain communities under Mughal rule, which coalesced around carefully selected, politically salient memories of imperial interaction. Along with its groundbreaking findings, Culture of Encounters certifies the critical role of the sociology of empire in building the Mughal polity, which came to irrevocably shape the literary and ruling cultures of early modern India. This book reviews the facts and arguments surrounding Heidegger's politics, and situates them within critical political debates as we move into the 21st century.
